Rhode Island Infrastructure Bank

Rhode Island Infrastructure Bank (the Bank) is the state's central hub for financing infrastructure improvements for municipalities, businesses, and homeowners. Over the past 30 years, the Bank has invested over \$2 billion in local infrastructure. In addition to the Bank's legacy clean-, drinking-water, and transportation-based programs, the Bank also supports energy efficiency and renewable energy, brownfield remediation and water quality protection lending.

Also noteworthy is that the Bank is a signatory of the Green Bond Pledge. In doing so, the Bank has reinforced its commitment to financing projects that directly account for environmental impact and climate change. Finally, furthering its commitment to increasing overall investment in clean energy, the Bank is a member of the Green Bank Network. The Network is a global group of financial institutions dedicated to mobilizing private investment in clean energy and climate resilient infrastructure.

Internship Posting – Research Analyst, Stormwater and Resiliency

We are seeking a full-time (37.5 hours weekly) summer intern for a 12± week internship as a Research Analyst. The focus of this internship is to assist the Managing Director, Program and Business Development in developing an impact report for Rhode Island's climate resilience action strategy, Resilient Rhody. Secondly, candidates will work with the entire Business Development team on project origination for the Infrastructure Bank's stormwater and resiliency programs. Candidates will be encouraged to take on responsibilities that align with both their own personal interests and the pursuits of the organization.

An internship with the Infrastructure Bank is an exciting opportunity to gain valuable experience at the frontier of the emerging field of green banking in an innovative and supportive work environment. We are seeking candidates with a strong interest and expertise in project management, climate finance, stakeholder engagement, and green stormwater infrastructure.

Required Qualifications:

The candidate will be expected to:

- Be currently matriculated in a Master's or Doctoral postgraduate degree program relevant to climate finance, environmental economics, finance, public policy, business management, design, environmental science, or other
- Develop an impact report which demonstrates the progress made on Resilient Rhody over the past three years
- Possess demonstrated interest in infrastructure, climate policy and finance through their coursework, work experience and/or extracurricular activities
- Possess a strong track record of project management experience
- Exhibit strong analytical thinking and communication skills (verbal and graphic)
- Work out of the Infrastructure Bank's office in Providence, RI (pending public health guidelines to safely return to the office)
- Adhere to all rules and regulations required of Bank staff

- Maintain a level of professionalism and integrity appropriate of a contributing member of the team and organization

Additional Preferred Qualifications:

- Proficiency in research and data analytics a plus
- Proficiency in using Adobe Creative Suite software
- Mastery in Microsoft Office (Word, Excel, PowerPoint), Outlook

Compensation, Location, and Term

We are offering paid (and credit upon evaluation) internships for the summer of 2021. The internship will be located at the Bank's office in Providence, RI. Candidates must possess the means to commute to our office. This internship will commence in mid-May and last through mid-August (dates negotiable).

To Apply

If you would like to apply for this position, please email careers@riib.org with your resume and cover letter by March 31st, 2021.

Please share specific work experience(s), academic accomplishment(s), and/or sufficient aptitude relevant to the pursuit of the position description above.
