Re: Round 14 Project Priority List for the Efficient Buildings Fund

Dear Angela:

The Office of Energy Resources (OER) respectfully submits the enclosed Project Priority List (PPL) for Round 14 of the Efficient Buildings Fund (EBF). Based on the scoring detailed below, OER has completed its review and evaluation of the below applicants for this round. The Infrastructure Bank can now engage in conversation with these borrowers to discuss financing terms and loan closing based on the ranking and scores below. OER is providing the maximum Least-Cost Procurement (LCP) Eligible funds for these loans.

EBF Project Priority List - Round 14				
RANK	App #	Project	LCP Eligible	AVG SCORE
1	2	Town of Narragansett*	\$236,260	66.00
2	1	Town of Middletown	\$3,403,544	62.00
<b>TOTAL</b>			<b>\$3,639,804.00</b>	

\*The Town of Narragansett project is eligible to move forward, receive financing, and draw down those funds contingent upon providing a turnkey contract with the selected installation company, specifications sheets for all proposed equipment, and electrical drawings for the project.

As the Town of Narragansett project has not yet completed final design, financing will be contingent upon OER and its consultant, DNV, receiving and reviewing the final design documents for the project.

If you have any questions regarding this evaluation and scoring, please contact me at any time.

Sincerely,

*Steven Chybowski*
